Dear sir/madam,

I am writing to apply for the position of graduate trainee engineer at your prestigious organization which was advertised on www.hotnigeriajobs.com.

I would relish an opportunity to be part of the outstanding developmental framework at Wartsila, one of the global leaders in advanced technologies and solutions for the marine and energy markets, consistently playing a key role in helping to meet the world's growing energy demand in economically, environmentally and socially responsible ways. I look forward to learning and gaining from the immense pool of experienced professional and available world class technologies at Wartsila. I bring to the table an immeasurable zeal to learn, drive to deliver tasks on schedule, integrity and a determination to succeed.

I pride myself on my Honesty, integrity and creativity in problem solving situations. Having graduated with a degree in Petroleum and Gas engineering from the University of Lagos I possess strong analytical, technical and team working skills combined with proficient use of Microsoft office suites. In addition to my flexibility and array of technical skills, I am also keen about safeguarding health and safety of people and assets as well as protection of the environment. In my previous work experiences, I have been actively involved in hazard identification, multi-disciplinary process hazard analysis team. I have also worked closely with the HSE officers of these organizations motivating me to obtain the HSE 1-3 certificate. I absolutely love the dynamics of working in a team, contributing both by individual effort and collaboration of ideas. I am confident that I possess the requisite skills to succeed at this job.

Please review the attached CV and consider my application for the graduate trainee production engineer. Leveraging on my skills, my educational background in Petroleum Engineering, I am positive I would be an asset and be making outstanding contributions at Wartsila.

Thank you for your time and consideration.
